Time- 3 hrs	Marks- 80
	12 25 A
Q.1 A Answer the following	2 816
i. Discuss mode of action of adverse effect of tetracycline	2
ii. State mechanism of action of sulfonylurea	
iii. State one examples of synergistic antimicrobial combination. Write its advantage	
iv. Give Mechanism of action of sitagliptin	
v. Enlist disorders in which Immunosuppressants are prescribed	8
vi. State the adverse effect of Penicillin	35
vii. Explain cross resistance in bacteria with suitable examples	250
	45
viii Give uses of oxytocin	S. S.
O.1.B. A novembre following	
Q.1 B Answer the following i. Justify synthetic estrogen are prefer over natural estrogen	4
ii. Write side effects of aminoglycoside	A
	25
iii.Classify antiamoebic drugs iv.Classify antifungal drugs. Write uses of miconazole	969 W
iv. Classify anthungal drugs, write uses of iniconazole	(C)
Q.2 A Answer any two of the following	8
i. Discuss the pharmacology of Dapson ii. Classify antimalerial drugs. Write a note on againing	3
ii. Classify antimalarial drugs. Write a note on quinine	
iii. Classify beta lactamase antibiotics. Write in brief about Peniciliin	25
O 2 A Another any one of the following	,
Q.2 A Answer any one of the following	4
i. Discuss in detail pharmacology of ketoconazoleii. Write in detail first line treatment use in tuberculosis and Write a note on Rifam	niain
ii. Write in detail first line deathert use in tuberculosis and write a note on Khainp	JICIII
Q.3 A Answer any two of the following	8
i. Write a note on oral contraceptives	0
ii.Classify oral hypoglycemic drugs. Discuss MOA and adverse effect of DPP IV in	hibitora
iii. Explain the role of vitamin D in maintain bone mineral density	IIIIDITOIS
III. Explain the fole of vitainin D in maintain bone inneral density	
Q.3 B Answer any one of the following	4
	4
i. Discuss the pharmacotherapy of hypothyroidism	
ii.Classify drugs use in osteoporosis. Elaborate on Bisphosphonate	
O (N) A nouse of the fallowing	0
Q.4 A Answer any two of the following	8
i. Explain the pharmacology of warfarin	
ii. Write a note on corticosteroids	2
iii. Discuss in detail MOA, Pharmacological effect and adverse effect of biguanides	S

Q.4 B Answer any one of the following i Explain pharmacology of carbimazole
Q.4 B Answer any one of the following i.Explain pharmacology of carbimazole
Q.4 B Answer any one of the following i.Explain pharmacology of carbimazole ii. What is the physiological role of Vitamin D. state the active forms of vitamin D Q.5 A Answer any two of the following i.Explain the pharmacotherapy of amoebiasis: ii. Write a short note on macrolide antibiotics. iii.Classify antiviral drugs. Write a note on zidovudine. Q.5 B Answer any one of the following i.Discuss in detail MOA; adverse effects of amphotericin B ii.Write a note on vinca alkaloid Q.6 A Answer any two of the following 8
Q.4 B Answer any one of the following
i.Explain pharmacology of carbimazole ii. What is the physiological role of Vitamin Destate the active forms of vitamin Destate the activ
ii. What is the physiological role of Vitamin D. state the active forms of vitamin D
Q.5 A Answer any two of the following i. Explain the pharmacotherapy of amoebiasis: ii. Write a short note on macrolide antibiotics. iii. Classify antiviral drugs. Write a note on zidovudine. Q.5 B Answer any one of the following i. Discuss in detail MOA, adverse effects of amphotericin B ii. Write a note on vinca alkaloid Q.6 A Answer any two of the following i. Classify immuosuppressants. Write a note on cyclosporine ii. Discuss the pharmacology of insulin iii. Write a note on alkylating agent Q.6 B Answer any one of the following i. Discuss the role of thrombolytic agents
Q.5 A Answer any two of the following
i.Explain the pharmacotherapy of amoebiasis.ii. Write a short note on macrolide antibiotics.
iii.Classify antiviral drugs. Write a note on zidovudine.
Q.5 B Answer any one of the following i.Discuss in detail MOA, adverse effects of amphotericin B
ii.Write a note on vinca alkaloid
Q.6 A Answer any two of the following i. Classify immuosuppressants. Write a note on cyclosporine
ii.Discuss the pharmacology of insulin
iii.Write a note on alkylating agent
Q.5 A Answer any two of the following i. Explain the pharmacotherapy of amoebiasis. ii. Write a short note on macrolide antibiotics. iii. Classify antiviral drugs. Write a note on zidovudine. Q.5 B Answer any one of the following i. Discuss in detail MOA, adverse effects of amphotericin B ii. Write a note on vinca alkaloid Q.6 A Answer any two of the following i. Classify immuosuppressants. Write a note on cyclosporine ii. Discuss the pharmacology of insulin iii. Write a note on alkylating agent Q.6 B Answer any one of the following i. Discuss the role of thrombolytic agents
i.Discuss the role of thrombolytic agents
ii.Write a note on folic acid and its uses.
ii.Discuss the pharmacology of insulin iii.Write a note on alkylating agent Q.6 B Answer any one of the following i.Discuss the role of thrombolytic agents ii.Write a note on folic acid and its uses.

Page 2 of 2
A CARE LANGE TO THE CONTROL OF THE C
Q.6 B Answer any one of the following i.Discuss the role of thrombolytic agents ii. Write a note on folic acid and its uses. **********************************
